Telefax: 039-722620

The Mission:

To discover, disseminate and apply the knowledge of science and engineering for human well-being and the development of society.

24th November, 2023.

Dear Sir,

RECOMMEDATION LETTER IN RESPECT OF OKECHUKWU VICTOR CHUKWUBUIKEM

It gives me a great pleasure to write on Victor applying for MBA programme in your University.

I have known Victor as an undergraduate student in the Department of Mechatronics Engineering, Bells University of Technology for 5 years where he graduated with a good grade in his undergraduate program in Mechatronics Engineering. As his lecturer, I wish to state that Victor is academically sound and intelligent, amiable in disposition, and easy going.

He is a candidate with significant exposure to fundamental engineering and entrepreneurial knowledge. He has strong abilities in critical analysis, literature review, data interpretation, and flawless research outcome presentation. In addition, he has the ability to work independently while remaining focused on larger research goals. He respects constituted authorities and gets along easily with his colleagues.

I, therefore, strongly recommend him for the proposed admission in your reputable institution.

Yours faithfully,

Dr. Philip Adesola Adewuyi
